You can obtain a free paper copy of the information on the website by calling Vanguard at 800-523-1188. **No specific action is required on your part as a result of this notice.**

**It takes just a few minutes to sign up for e-delivery:** If you haven't already signed up to receive plan communications electronically, you can change your mailing preference by logging on to [vanguard.com/retirementplans](http://vanguard.com/retirementplans).

### Summary

This document has two parts. Part I consists of general plan information, including how you may direct investments in your plan account, whether you have voting rights associated with any plan investments and any restrictions that may apply to that investment direction. Part I also describes the fees and expenses you will pay for plan administration and individual transactions. Part II consists of performance information for plan investment options. This part shows you how well the investments have performed in the past. Part II also shows you the fees and expenses you will pay if you invest in an option.

#### Part I. General plan information

##### A. How to direct your plan investments

Your plan gives you the right to direct some or all of your plan investments. You can direct your plan investments using any of the three convenient methods listed below. For a list of the designated investment alternatives offered in your plan and any designated investment managers, please refer to the complete investment fee and performance chart contained in this notice.

- **Online.** Log on to your account at [vanguard.com](http://vanguard.com) anytime. If you have not signed up for secure online account access, visit [vanguard.com/register](http://vanguard.com/register) and follow the prompts. You will need your plan number: 097337.
- **By phone.** Call the 24-hour interactive VOICE<sup>®</sup> Network at **800-523-1188**. You will need a personal identification number (PIN) to use VOICE. To create a PIN, follow the prompts.
- **With personal assistance.** Vanguard Participant Services associates are available at **800-523-1188** or via TTY text telephone for the deaf or hearing impaired at **800-749-7273** Monday through Friday from 8:30 a.m. to 9 p.m., Eastern Time.

Transaction requests (for example, a contribution, exchange or redemption) must be in good order. "Good order" means that Vanguard has determined that (1) your transaction request includes complete information and (2) appropriate assets are already in your account or new assets have been received.

Vanguard, as your plan's record keeper, will determine the necessary processing time for your transaction request before submission to the fund(s).

Your transaction will then be based on the next-determined net asset value (NAV) of the investment's shares. If your transaction request is received by Vanguard in good order on a business day before the close of regular trading on the New York Stock Exchange (NYSE) (generally 4 p.m., Eastern Time), you will receive that day's NAV and trade date. If your transaction request is received in good order while the NYSE is closed, you will receive the next business day's NAV and trade date.

If your transaction involves one or more investments with an early cutoff time for processing or another trading restriction, your entire transaction will be subject to that cutoff time when the trade date for your transaction is determined. If an early cutoff time applies to an investment available in your plan, please review the next section for additional information.

You may not cancel any transaction request once processing has begun. Please be careful when placing a transaction request.

### **Proxy voting**

The plan administrator or other named fiduciary for the plan exercises voting, tender and similar rights with respect to the mutual funds in the plan.

## **B. Limitations on your ability to direct investments**

### **Frequent trading policy**

Because excessive transactions can disrupt the management of an investment and increase its transaction costs, limits are placed on exchanges and other transactions. If you move money out of an investment (other than money market funds, stable value investments, employer securities, short-term bond funds, but including Short-Term Inflation-Protected Securities Index), you cannot move money back into the same investment for 30 days. This policy applies regardless of the dollar amount. Please note that the 30-day clock restarts after every exchange out of the investment.

The frequent trading policy does not apply to the following: exchange requests submitted by mail to Vanguard (exchange requests submitted by fax, if otherwise permitted, are not mail requests and are subject to the policy); exchanges of shares purchased with participant payroll or employer contributions or loan payments; exchanges of shares purchased with reinvested dividend or capital gains distributions; distributions, loans, and in-service withdrawals from a plan; redemptions of shares as part of a plan termination or at the direction of the plan; redemptions of shares to pay fund or account fees; share or asset transfers or rollovers; re-registrations of shares within the same investment; conversions of shares from one share class to another in the same investment; and automated transactions executed through any Advice Program.

Note that your plan and the issuers of your plan's investments reserve the right to revise or terminate the exchange privilege (your ability to move money between investments), limit the amount of any exchange, or reject any exchange at any time, without notice.

## **C. Individual transaction expenses**

Your account will be subject to additional fees if you select one of the following plan services. Please also review your account statement for a detailed disclosure of the dollar amount actually charged to your account for these services and a description of the services to which these fees relate.

### **Beneficiary determination service fee**

If your account is transferred to your surviving beneficiary in the event of your death, a fee of \$250 will be deducted from the account balance for the cost of the beneficiary determination.

### **In-Service Withdrawal fee**

If you request a withdrawal from your account, a fee of \$25 will be deducted from your account balance for each separate withdrawal that is processed.

### **Required Minimum Distribution and Installment fee**

An annual fee of \$25 will be deducted from your account balance on your first required minimum distribution or installment that is processed in a calendar year.

### **Termination withdrawal fee**

If your account balance is above \$100 you will be charged a fee of \$25 when you remove money from your account after termination of employment. This fee will be deducted from your withdrawal amount.

### **Vanguard Managed Account Program fee**

The Vanguard Managed Account Program is an advisory service offered by Vanguard Advisers, Inc. and powered by software developed by Financial Engines Advisors, LLC, an independent investment advisor unaffiliated with Vanguard Advisers, Inc. and Vanguard. In providing this service, Vanguard Advisers, Inc. is a designated investment manager for your plan. If you enroll in the Vanguard Managed Account Program, your account will be charged an annual management fee as follows:

- 0.40% of your balance per year for the first \$100,000 in your account.
- 0.30% of your balance per year for the next \$150,000 in your account.
- 0.20% of your balance per year for the next \$250,000 in your account.
- 0.10% of your balance per year for amounts over \$500,000 in your account.

The minimum annual fee is \$60.00.

### **Investment fees charged to your account**

Investments in your plan may carry additional fees, including administrative charges, commissions, sales loads, sales charges, deferred sales charges, redemption fees, surrender charges, exchange fees, account fees, and purchase fees. Please review the complete investment fee and performance chart contained in this notice to determine whether these fees may be charged for an investment option, and review your account statement for a detailed disclosure of the dollar amount actually charged to your account each quarter that is attributable to these fees.

## Part II. Investment performance and fee information

The table below focuses on the performance of investment options that do not have a fixed or stated rate of return. This table shows how these options have performed over time and allows you to compare them with an appropriate benchmark for the same time periods. Past performance does not guarantee how the investment option will perform in the future. Your investment in these options could lose money. Information about an option's principal risks is available on your plan's website.

This table also shows fee and expense information for the investment options listed below, including the total annual operating expenses of each investment option listed below. Total annual operating expenses are expenses that reduce the rate of return of the investment option. This table also shows shareholder-type fees. These fees are in addition to total annual operating expenses. The table also shows any restrictions or limitations that may apply to purchases, transfers, or withdrawals of the investment.

Please note, each benchmark provided in the chart is a broad-based securities market index, as required by Department of Labor regulation. When reviewing performance of a blended fund (a fund that invests in a mix of stocks, bonds and/or money market instruments, like a Target Date Fund or balanced fund), it may also be useful to compare fund returns to composite benchmarks comprised of multiple broad-based indices based on the fund's composition, goals and objectives. Composite benchmarks are available in the fund prospectuses and at [vanguard.com](http://vanguard.com). If you have questions or need help finding additional information, contact Vanguard Participant Services at 800-523-1188.

## Investment performance and expenses

The table below provides important information about your investment options (as of March 31, 2022)

*The performance data shown represents past performance, which is not a guarantee of future results. Investment returns and principal value will fluctuate, so investors' shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data cited. Risk: Target-date investments are subject to the risks of their underlying funds. The year in the investment name refers to the approximate year (the target date) when an investor would retire and leave the workforce. The investment will gradually shift its emphasis from more aggressive investments to more conservative ones based on its target date. A target-date investment is not guaranteed at any time, including on or after the target date.

Please note, when reviewing performance of a blended fund (a fund that invests in a mix of stocks, bond and/or money market instruments, like a Target Date Fund or balance fund), it may be useful to compare fund returns to composite benchmarks comprised of multiple broadbased indices based on the fund's composition, goals and objectives. A broadbased securities market index has also been provided as required by Department of Labor regulation.

Risk: Investments in bond funds are subject to interest rate, credit, and inflation risk. While U.S. Treasury or government agency securities provide substantial protection against credit risk, they do not protect investors against price changes due to changing interest rates. Although the market values of government securities are not guaranteed and may fluctuate, these securities are guaranteed as to the timely payment of principal and interest. High-yield bonds generally have medium- and lower-range credit quality ratings and are therefore subject to a higher level of credit risk than bonds with higher credit quality ratings.

\*You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

## Fee information

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for an example showing the long-term effect of fees and expenses at <https://www.dol.gov/sites/dolgov/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf>.

Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

Please visit <http://retirementplans.vanguard.com/PubFundChart/gettydefined/7252> for updated fee and performance information for each of these investment alternatives, along with additional information regarding the investment's issuer, objectives and goals, principal strategies and risks and portfolio turnover rate.

## Fee/expense definitions

**Total annual operating expense (gross expense ratio)** – The investment fund's annual operating expenses, often expressed as a percentage of average net assets. The total annual operating expense does not reflect any fee waivers or reimbursements that may be in effect.

**Sales charge** – A charge deducted from the amount invested when shares of a fund are initially purchased. The amount is generally relative to the amount of the investment, so that larger investments incur smaller rates of charge.

**Redemption fee** – The redemption fee is an amount charged when shareholders redeem shares of a fund within a specified number of days following the purchase of those shares. The redemption fee is intended to allow funds to recoup some of the costs incurred as a result of short-term trading strategies, such as market timing.

**Deferred sales charge** – This charge is imposed when investors redeem shares. The percentage charged generally declines the longer shares are held.

**Liquidity Fee** – A money market fund must impose (unless determined by its board) a liquidity fee of 1% on all redemptions if the money market fund's weekly liquid assets fall below 10% of total assets; a money market fund's board may impose a liquidity fee of up to 2% on all redemptions if the fund's weekly liquid assets fall below 30% of total assets.

The performance of an index is not an exact representation of any particular investment, as you cannot invest directly in an index.
